myjobtank

brand identity

My Job Tank is a recruitment agency in San Francisco focused on technology-related careers in the SF Bay Area, New York and Seattle. I worked with logo designer Jeff Ivarson to develop a new logo for MJT. My own services included all other aspects of brand identity, style guide, copywriting and graphic and web UX/UI design.

## Table of Contents

|    |                   |
|----|-------------------|
| 2  | Our Guidelines    |
| 4  | Our Brand Purpose |
| 9  | Master Logo       |
| 20 | Color             |
| 30 | Typography        |
| 37 | Icon              |
| 42 | Photography Style |
| 51 | Sound             |
| 59 | Conclusion        |

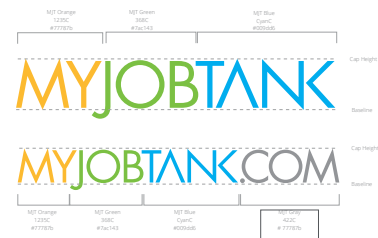

Talent, meet your next opportunity. Employers, meet your match.

MYJOBTANK

## Logotype

MY's logotype carries the personality and professionalism of the brand while not being over-complicated. Make sure to implement our logo by following the rules set out in this document.

MYJOBTANK  
MYJOBTANK.COM

## The Main Colors

These values capture the majority of the color needs in our brand.

White is used as the brand canvas. It captures the majority of all needs.

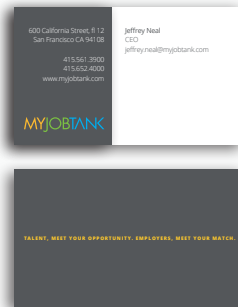

The blue, orange and green are used sparingly to add interest to specific areas and bring impact.

The slate and medium gray is used to support all of this and create an additional color for contrast and tertiary needs. It is most commonly used within the typography instead of black.

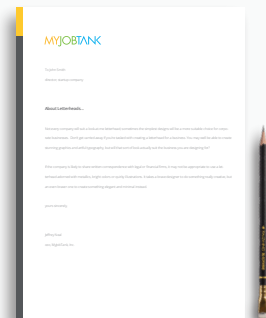

## Business Cards

Business cards should speak for themselves. They should represent the quality and value of the brand. It's important to use quality materials when printing business cards. Letterpress is recommended for a high-end feel.

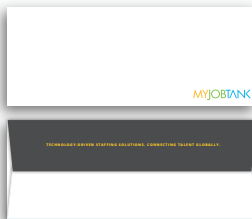

## Letterhead

MyJobTank letterhead will be used for all external communications in order to create a sense of value. It's important to utilize high quality paper for all correspondence printed on letterhead.

## Letterhead envelopes

Business cards should speak for themselves. They should represent the quality and value of the brand. It's important to use quality materials when printing business cards. Letterpress is recommended for a high-end feel.

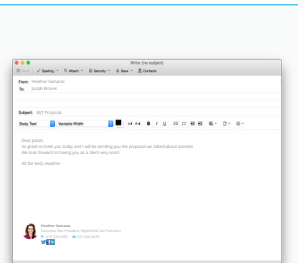

## Notecards

MyJobTank notecards will be used for all external communications in order to create a sense of value. It's important to utilize high quality paper for all correspondence printed on notecards.

## Email Signature

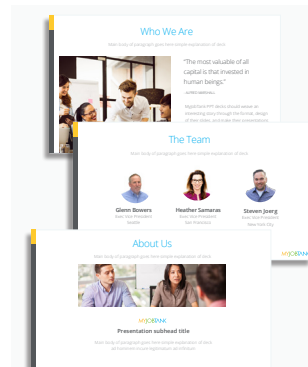

A strong email signature is attention-getting but professional. Not flashy, not bland. No need to add your email address as it is already obvious. Using every possible contact detail and social media link is also overkill.

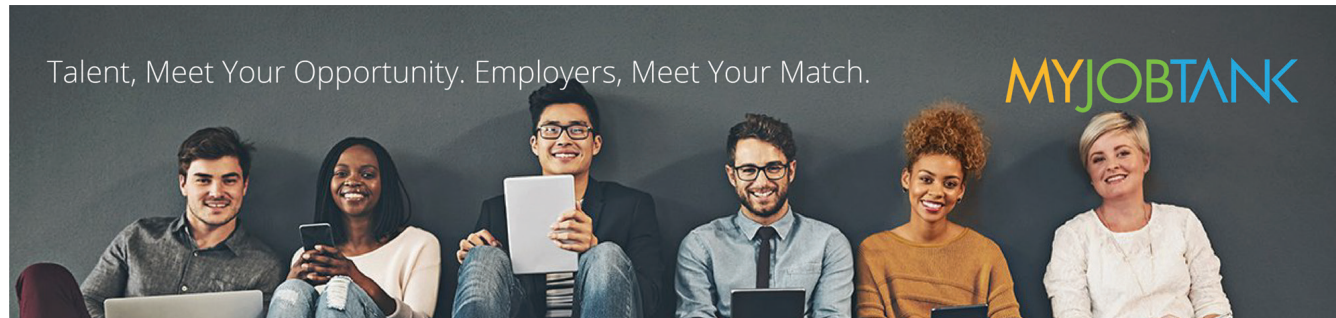

## PPT Template

MyJobTank PPT decks should weave an interesting story through the format, design of their slides, and make their presentations interactive with features exclusive to the platform on which they were created. These are all crucial elements to making an awesome presentation -- as well as a few key points to note:

- Less is more
- Keep text to a minimum, focus on the message
- Rethink visuals - information recall is better when paired with an image
- Incorporate multimedia

a style guide was created to define parameters for new logo usage for print and web collaterals, copy, tone and voice

Customized LinkedIn web banner

Master ppt  
templates  
for internal, sales  
and business  
development use

## Placing specialty talent is our thing.

My Job Tank's (MJT) all-star team of IT recruiters have subject matter expertise in the most current and in-demand skillsets. Our recruiters receive intensive training on the latest, most sought-after technologies such as Big Data, Analytics, AI/Machine Learning, DevOps, Agile and much more. We combine this expertise with our proprietary AI platform and our trademark customized process. We craft a personalized game plan to meet each client's needs and proactively pipeline talent in various industries, skillsets and/or business lines and products to anticipate demand. All with the aim to provide our clients with faster, more applicable response time and speed to market.

The information below outlines just some of MJT's core business and service offerings. Contact us today to discuss a strategy for your specific needs.
